Subject: COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR FISCAL

YEAR 2017-18

California law requires that every local government publish within six months of the close of each fiscal year a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year that ended on June 30, 2018.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that has been established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The Pun Group, LLP, Accountants and Advisors, has issued an unqualified ("clean") opinion on the Las Virgenes Municipal Water District's financial statements for the fiscal year that ended on June 30, 2018. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Government

Las Virgenes Municipal Water District (LVMWD or District), incorporated in 1958, is located on the western edge of Los Angeles County, California, and includes the cities of Agoura Hills, Calabasas, Hidden Hills and Westlake Village, and adjacent areas of Los Angeles County. LVMWD occupies 122 square miles and serves a population of approximately 70,000. LVMWD is also the administering agent for the Las Virgenes –

i

Triunfo Joint Powers Authority (JPA), which provides sanitation services to approximately 100,000 people within 172 square miles of western Los Angeles County and southeastern Ventura County.

LVMWD is empowered to levy an assessment on real property located within its boundaries, up to \$10 per parcel, and has a miniscule share of the property tax assessment. The majority of revenue is from user fees for service. LVMWD also is empowered by state statute to extend its corporate limits by annexation, which it has done from time to time.

LVMWD has operated under the board-general manager form of government since its inception. Policy-making and legislative authority are vested in a governing board (Board) consisting of five members elected by division on a non-partisan basis. The Board appoints the general manager, who in turn appoints the heads of the various departments. Board members serve overlapping four-year terms, and every two years -- concurrent with installation of the newly elected board -- select board officers. A District representative to the board of directors of Metropolitan Water District of Southern California is appointed to serve an indefinite term.

LVMWD provides potable water, sanitation and recycled water services to its customers. Sanitation and recycled water services are provided in conjunction with Triunfo Sanitation District through the JPA.

Although not required by law, the Board adopts a final budget for the next fiscal year by the close of the current fiscal year. This annual budget serves as the foundation for LVMWD's financial planning and control. The budget is prepared by enterprise, function (e.g. system operations) and department (e.g. Facilities and Operations). Department heads may transfer resources within a department or enterprise as they see fit, but transfers between departments or enterprises need special approval from the Board.

Local Economy

The region is highly desirable for both residences and businesses, with exceptional natural attributes. Much of the service area lies within the Santa Monica Mountains with the associated hilly terrain, mountain and ocean views and moderate climate. Open space and recreational opportunities are abound with considerable local acreage dedicated as national and state parkland via the 244.5-square-mile Santa Monica Mountains National Recreation Area. Beaches lie within minutes of any location in the area. Varied academic institutions are proximate and easily accessible, including Pepperdine University's Malibu campus, California Lutheran University in Thousand Oaks, and California State University, Northridge.

The service area contains some of the highest assessed values for property in the county. All are relatively new communities with recent infrastructure and an award-winning, highly sought school system.

More than 80% of local housing is single-family dwellings, in sharp contrast to the countywide average of 56%. Median home prices in the District considerably exceed county averages. The District benefits from its close proximately to Los Angeles and quality commercial and retail spaces. The District has few major industrial customers.

Primarily residential, LVMWD is also a home to notable corporations and commercial activities. Located within the service area are several significant employers including Las Virgenes Unified School District, Bank of America Home Loans, Farmers Insurance, IXIA Communication, The Cheesecake Factory corporate offices and bakery; Four Seasons Hotel; Move, Inc.; Move, Inc.; Dole Food Company; and Conversant LLC.

Financial Condition and Outlook

Over recent years, the District successfully recovered from the financial downturn and was in the third year of a five-year rate adjustment plan that ensures continued financial sustainability. District staffing levels have stabilized and compensation has generally kept pace with comparable agencies. The District has continued to pay for capital projects with available resources resulting in minimal debt.

The overall financial position of the District is stable. The District continued to see increases in potable water sales. Potable water sales during Fiscal Year 2017-18 increased by 11.30% from Fiscal Year 2016-17. Recycled water sales during the same period increased by 13.51%. Recycled water use increases were anticipated in the Fiscal Year 2017-18 as winter rainfall was significantly reduced from the prior year. For Fiscal Year 2018-19, the District has a stable outlook and continues to monitor economic and hydrologic conditions.

Long Term Financial Planning

The District presented a two-year budget plan on May 22, 2018 for Fiscal Years 2018-20. The document improves long-range and strategic planning, financial management, and program monitoring. The two-year budget represents the concerted efforts of staff to estimate the financial needs of the District for two fiscal years to continue to provide high quality water and sanitation services to the District's customers. The budget is also aligned to meet the District's adopted Strategic Plan Goals and Financial Policies.

Relevant financial policies

Since 1999, the District has utilized a broad-based set of Board-adopted financial policies to guide it in making important financial decisions. The policies are reviewed annually and updated periodically to address changing conditions and adopted annually as an integral part of the budget.

Major initiatives

The District supported the Las Virgenes-Triunfo Joint Powers Authority in an extensive stakeholder-driven process to identify the best means to maximize the beneficial reuse of treated effluent from the Tapia Water Reclamation Facility. Following two-years of study and community stakeholder input that focused on how to best manage discharge from the Tapia Water Reclamation Facility to Malibu Creek, the Pure Water Project Las Virgenes-Triunfo emerged as the preferred alternative to meet the goal, while also providing a local source of potable water. The proposed Pure Water Project will take surplus recycled water from the Tapia Water Reclamation Facility and further treat it to better than drinking water standards. The treated water will be mixed with imported water stored in Las Virgenes Reservoir until needed. At that time, the water will be treated again prior to use in the potable water system.

In Fiscal Years 2018-19 and 2019-20, the District will be spending \$2.8 million, its share of the Las Virgenes-Triunfo Joint Powers Authority project, on the design and the construction of a demonstration facility to be built at the District's headquarters campus. Tours of the facility are intended to educate and promote public confidence in the treatment technology.

Several technical studies including an Advanced Water Treatment Plant Siting Study, Hydrodynamic Modeling of Las Virgenes Reservoir and a Title XVI Feasibility Study have been completed for the Pure Water Project. These studies will be used in the next step of preliminary design and environmental analysis.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded LVMWD the Certificate of Achievement for Excellence in Financial Reporting for its Comprehensive Annual Financial Report for the Fiscal Year that ended on June 30, 2017. This was the 20th consecutive year that LVMWD received this prestigious award. In order to be awarded a Certificate of Achievement, a government agency must publish an easily readable and efficiently organized comprehensive annual financial report that satisfies both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is only valid for a period of one year. Staff believes that its current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and will submit it to the GFOA to determine its eligibility for another certificate.

In addition, LVMWD also received the GFOA's Distinguished Budget Presentation Award for its annual budget document and the Award for Outstanding Achievement in Popular Annual Financial Reporting in fiscal year 2016-17. The District posts all of its financial documents on its public website at http://www.lvmwd.com/about-us/adopted-budget-and-annual-financial-reports.

Acknowledgements

The preparation and development of this report would not have been possible without the year-round work of the Finance Division staff and their special efforts, working in conjunction with the District's independent auditors. We would also like to thank the Board for its continued interest and support in managing the District's financial resources in a responsible manner that ensures transparency and proper stewardship of ratepayer's money.

Respectfully submitted,

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of the Las Virgenes Municipal Water District Calabasas, California

Report on Financial Statements

We have audited the accompanying financial statements of the business-type activities and the discretely presented component unit of the Las Virgenes Municipal Water District, California (the "District"), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of the District, as of June 30, 2018, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

To the Board of Directors of the Las Virgenes Municipal Water District Calabasas, California Page 2

Emphasis of Matter

Change in Accounting Principle

As discussed in Note 11 to the financial statements, in 2018, the District adopted new accounting guidance, GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The adoption of this statement requires retrospective application of previously reported net position at July1, 2017 as described in Note 12 to the basic financial statements. In addition, Net OPEB Liability is reported in the Statement of Net Position in the amount of \$19,183,096 as of June 30, 2017, the measurement date. This Net OPEB Liability is calculated by actuaries using estimates and actuarial techniques from an actuarial valuation as of June 30, 2018. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Changes in Net Pension Liability and Related Ratios – CalPERS Pension Plan, the Schedule of Contributions – CalPERS Pension Plan, the Schedule of Changes in OPEB Liability and Related Ratios – Other Post-Employment Benefits Plan, and the Schedule of Contributions – Other Post-Employment Benefits Plan on pages 5 through 12 and 51 through 53, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Introductory and Statistical Sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

To the Board of Directors of the Las Virgenes Municipal Water District Calabasas, California Page 2

Other Reporting Required by Government Auditing Standards

The Red Group, UP

In accordance with *Government Auditing Standards*, we have also issued our report dated November 6, 2018 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Santa Ana, California November 6, 2018 Kenneth H. Pun, CPA, CGMA CPA Number: 88316

Kin. P

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors of the Las Virgenes Municipal Water District Calabasas, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the discretely presented component unit of the Las Virgenes Municipal Water District, California (the "District"), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 6, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To the Board of Directors of the Las Virgenes Municipal Water District Calabasas, California Page 2

The Red Group, UP

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

LAS VIRGENES MUNICIPAL WATER DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2018

This section of the District's annual financial report presents management's analysis of the District's financial performance during the Fiscal Year that ended on June 30, 2018. Please read it in conjunction with the Financial Statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's 2018 net position increased by \$13.9 million to \$218.3 million.
- During FY 2018, the District's revenues increased by 12.22% to \$68.9 million, expenses increased by 5.43% to \$57.5 million.
- In FY 2018, capital contributions to the District increased to \$2.6 million or 313.8% more than FY 2017.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis serves as an introduction to Las Virgenes Municipal Water District's basic financial statements. The District's basic financial statements are comprised of two components: Financial Statements and Notes to the Financial Statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

CHANGES TO THE FINANCIAL STATEMENTS

Governmental Accounting Standards Board (GASB) Statement 75

GASB 75, dated June 2015, was issued to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). GASB 75 defines how the District will present OPEB liability and contributions, and is reflected in Note 11. GASB 75 also requires adding the District's Net OPEB liabilities to the Financial Statements beginning on page 14. The District's reported Net OPEB liability is \$19.2 million at June 30, 2018.

BASIC FINANCIAL STATEMENTS

Because the District is comprised of three business type enterprises, potable water, recycled water, and sanitation, the Financial Statements of the District report information about the District using accounting methods similar to those used by private sector companies. These statements offer short- and long-term financial information about its activities. The Statement of Net Position includes all of the District's assets, deferred outflow of resources, liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to District creditors (liabilities). It also provides the basis for computing rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District.

All of the current year's revenues and expenses are accounted for in the Statements of Revenues, Expenses and Changes in Net Position. This statement measures the success of the District's operations over the past year and can be used to determine the District's credit worthiness and whether the District has successfully recovered all its costs through its user fees and other charges.

The final required Financial Statement is the Statement of Cash Flows. The primary purpose of this statement is to provide information about the District's cash receipts and cash payments during the reporting period. The statement reports cash receipts, cash payments, and net changes in cash resulting from operations and investments. It also provides answers to such questions as where did cash come from, what was cash used for, and what was the change in cash balance during the reporting period.

FINANCIAL ANALYSIS OF THE DISTRICT

The Financial Statements provide information on whether the District, as a whole, is in a stronger or weaker financial position compared to the last year. The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position provide a means to measure the District's financial health or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. However, you will need to consider other non-financial factors such as changes in economic conditions, population growth, weather, and new or changed government legislation.

During Fiscal Year 2017-18 the District saw continued increased water sales as a rebound from the multiyear drought continued. The District's potable water-budget based rate structure supports a conservation philosophy through increasing tier structure and an annual incremental increase in the percentage of fixed cost recovered through fixed fees, which over time will reduce dependence on fluctuating water sales to meet revenue needs. The sanitation and recycled water enterprises continued to build additional reserves as the District prepares to construct its Pure Water project that will take surplus recycled water and process it through an advanced treatment facility; then store it at Las Virgenes Reservoir for later use as drinking water. The District is well positioned to meet demands of a changing climate to meet its customer's water and sanitation needs.

Las Virgenes Municipal Water District operates a Joint Powers Authority (JPA) with Triunfo Sanitation District for the transmission and treatment of sanitation. In conformance with GASB 61, the JPA is presented in the District's Financial Statements as a Discretely Presented Component Unit. The JPA annually issues an Independent Auditors' Report and Financial Statements that includes a Management Discussion and Analysis. It is recommended to review this document for additional information on the financial condition of the JPA.

NET POSITION

Table 1 shows a comparative analysis of the District's Net Position. As shown below, net position increased by \$13.9 million to \$218.3 million in FY 2017. The implementation of GASB 75 restated the net position at June 30, 2018 by \$18.1 million.

TABLE 1
Condensed Statements of Net Position
(in thousands of dollars)

	FY 2018	FY 2017 (restated)
Current and Other Assets	\$ 96,369	\$ 82,884
Capital Assets	124,526	125,810
Investment in JPA	62,521	62,556
Total Assets	283,416	271,250
Deferred Outflow of Resources	9,065	9,158
Long-Term Debt Outstanding	15,596	14,670
Net Pension Liability	20,493	19,563
Net OPEB Liability	19,183	18,064
Other Liabilities	16,592	18,956

Restricted	2,683	2,654
Unrestricted	105,866	92,864
Total Net Position	\$ 218,343	\$ 204,448

REVENUES, EXPENSES AND CHANGES IN NET POSITION

While the Statement of Net Position shows the change in financial position, the Statement of Revenues, Expenses and Changes in Net Position provides information concerning the nature and source of these changes. As shown in Table 2 below, the income before capital contributions was \$11.3 million. The income plus capital contributions lead to the overall increase in net position of \$13.9 million, when compared to last year's CAFR.

Water sales, the District's primary revenue source, were higher as the drought restrictions were lifted and customers adjusted to their water budgets. Wasteful water use penalties impose increasing fines on customers who exceed their water budgets by 200%, which has helped limit the increase.

Operating expenses were higher by 5.4% year-over-year primarily due to salary and benefits increase and increased maintenance costs.

Capital contributions are irregular, as the District does not experience many large-scale projects. In July 2017, the District adopted a new capacity fee structure that focuses contributions on maintenance and upgrading of existing infrastructure.

TABLE 2
Condensed Statements of Revenues,
Expenses and Changes in Net Position

		FY 2017	
	FY 2018	(restated)	
Operating Revenues:			
Water Sales	\$ 46,250	\$ 39,963	
Sanitation and Other	20,467	19,832

Change in Net Position	13,895	7,411	
Net Position - Beginning of Year	204,448	215,101	
Net Position - End of Year	\$ 218,343	\$ 204,448	

CAPITAL ASSETS

At the end of FY 2018, the District had invested \$237.3 million in a broad range of infrastructure including water and sewer lines, wastewater facilities, reservoirs, tanks, distribution facilities, compost facility, maintenance and administration facilities, vehicles and equipment and an investment in Joint Venture of \$62.5 million as shown in Table 3. This amount represents a net decrease (including additions, deletions, and depreciation) of \$1.3 million from last year. The decrease is predominantly due to fewer projects added as the District prepares for Las Virgenes Triunfo Pure Water Project that is planned to treat sanitation effluent into potable water.

More information about the District's Capital Assets Depreciation policy is presented in Note 2 of the Basic Financial Statements. A more detailed summary of Capital Assets is presented in Note 7 to the Basic Financial Statements.

TABLE 3
Capital Assets
(In thousands of dollars)

The following is a summary of some of the major improvements to the system during FY 2018.

TABLE 4
Major Capital Improvement Projects
(In thousands of dollars)

	FY 2018
Westlake Filtration Plant Expansion	\$ 4,636
Jed Smith Pipeline Replacement	714
Raise Air Vacuum Valves	536
Building 7 & 8 Lighting Efficiency Upgrades	200
Total	\$ 6,086
	FY 2017
Westlake Pump Station Upgrade	\$ 4,236
Westlake Filtration Plant Expansion	3,838
Centrate Equalization Tank	1,785
Tapia Primary Tanks No. 2-5 Rehabilitation	874
Jed Smith Pipeline Replacement	643
Tapia Sluice Gates and Drives Replacement	437
Twin Lakes Tank Site Drainage Project	274
Recycled Water Seasonal Storage Study	224
Total	\$ 12,311

LONG TERM DEBT

At year-end, the District had total long-term debt of \$15.5 million, down from \$17.9 million in FY 2017. The majority of this, \$15.5 million is for the 2009 Sanitation Refunding Revenue Bond and Unamortized Premium, which had a FY 2018 year-end balance of \$14.7 million. This debt is solely the obligation of the Sanitation Enterprise. More detailed information about the District's long-term liabilities is presented in Note 9 to the Basic Financial Statements. No new debt was incurred in FY 2018.

The District maintains an "AA" rating from Standard & Poor's for the refunding revenue bonds. One area that demonstrates the District's financial strength and future borrowing capability is seen in its debt coverage ratio. Current bond covenants require that the debt coverage ratio must be greater than 1.10. The debt coverage ratio for FY 2018 was 2.69%.

TABLE 5
Debt Coverage Ratio - Sanitation
(In thousands of dollars)

	FY 2018	FY 2017	Percent Change
Sanitation:			
Total Operating Revenues	18,818	18,613	1.10%
Total Operating Expenses (less depreciation)	11,421	10,614	7.60%
Net Earnings	7,397	7,999	-7.53%
Maximum Annual Debt Service	2,752	2,756	-0.15%
Debt Coverage Ratio	2.69	2.90	-7.39%

The District has outstanding refunding revenue bonds issued in December 2009. The District's current average cost of capital were 3.66% and 3.93% at June 30, 2018 and 2017, respectively, as shown on Table 6.

TABLE 6 Cost of Capital (In thousands of dollars)

		Average
	Debt Balace	Coupon Rate
Refunding Revenue Bonds at June 30, 2018	14,670	3.66%
Refunding Revenue Bonds at June 30, 2017	16,795	3.93%

CONTACTING THE DISTRICT'S FINANCIAL MANAGER

This financial report is designed to provide our residents, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Las Virgenes Municipal Water District, Department of Finance and Administration, 4232 Las Virgenes Road, Calabasas, California, 91302; or visit our website at www.lvmwd.com.

Net cash provided by Operating Activities	\$	29,255,664	

Disclosure of Noncash Transactions:

1 Projects funded by water and sewer capacity fees/connection fees and meter installation fees were completed during the fiscal year. As a result, capital contributions in the amount of \$1,477,147 from capacity fees and \$60,942 from meters installed were reclassified from deferred capacity and developer fees to contributed capital for the year ended June 30, 2018.

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

Note 1 – Reporting Entity

Las Virgenes Municipal Water District (the "District") is organized under the Municipal Water District Act of 1911 (California Water Code 71000). A five-member board of directors, who are elected by geographic divisions, provide governance. The District was formed to secure a high quality, reliable source of water for areas which include the cities of Agoura Hills, Calabasas, Hidden Hills and Westlake Village, plus surrounding unincorporated portions of western Los Angeles County.

Discretely Presented Component Unit

The Las Virgenes-Triunfo Joint Powers Authority ("JPA") was created on October 12, 1964 between the District and Triunfo Sanitation District ("TSD") for the purpose of constructing, operating, maintaining and providing for the replacement of a joint sewage system to serve the Malibu Canyon drainage area. The JPA consists of ten board members where five of them are the board members of the District and the other five are the board members of TSD. The JPA is fiscally dependent in that the JPA could not issue bonded debt without approval from the District. There is a financial benefit and burden relationship between the District and the JPA. The JPA issues a separate financial report that is available upon request from the District. The financial statements of the JPA are included as a discretely presented component of the District's financial statements.

Note 2 – Summary of Significant Accounting Policies

Basis of Presentation

Financial statement presentation follows the recommendations promulgated by the Governmental Accounting Standards Board ("GASB") commonly referred to as accounting principles generally accepted in the United States of America ("U.S. GAAP"). GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting standards.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The financial statements (i.e., the statement of net position, the statement of revenues, expenses and changes in net position, and statement of cash flows) report information on all of the activities of the District.

The financial statements are reported using the "economic resources" measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as all eligibility requirements have been met. Interest associated with the current fiscal period is considered to be susceptible to accrual and so has been recognized as revenue of the current fiscal period.

The Statement of Net Position reports separate sections for Deferred Outflows of Resources, and Deferred Inflows of Resources, when applicable.

<u>Deferred Outflows of Resources</u> represent outflows of resources (consumption of net position) that apply to future periods and that, therefore, will not be recognized as an expense until that time.

<u>Deferred Inflows of Resources</u> represent inflows of resources (acquisition of net position) that apply to future periods and that, therefore, are not recognized as a revenue until that time.

Las Virgenes Municipal Water District Notes to the Basic Financial Statements (Continued)

For the Year Ended June 30, 2018

Note 2 – Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Operating revenues are those revenues that are generated from the primary operations of the District. The District reports a measure of operations by presenting the change in net assets from operations as "operating income" in the statement of revenues, expenses, and changes in net assets. Operating activities are defined by the District as all activities other than financing and investing activities (interest expense and investment income), grants and subsidies, settlement receivable allowance, and other infrequently occurring transaction of a non-operating nature. Operating expenses are those expenses that are essential to the primary operations of the District. All other expenses are reported as non-operating expenses.

Cash, Cash Equivalents, and Investments

Cash and cash equivalents include all highly liquid investments with original maturities of 90 days or less and are carried at cost, which approximates fair value.

The District participates in an investment pool managed by the State of California titled Local Agency Investment Fund ("LAIF"), which has invested a portion of the pool funds in structured notes and asset-backed securities. LAIF's investments are subject to credit risk with the full faith and credit of the State of California collateralizing these investments. In addition, these structured notes and assets-backed securities are subject to market risk and to change in interest rates. The reported value of the pool is the same as the fair value of the pool shares.

Certain disclosure requirements, if applicable for deposit and investment risk, are specified for the following areas:

- Interest Rate Risk
- Credit Risk
 - Overall
 - Custodial Credit Risk
 - Concentration of Credit Risk
- Foreign Currency Risk

Restricted Cash and Investments

Cash and investments with fiscal agents are restricted due to limitations on their use by bond covenants or donor limitations. Fiscal agents acting on behalf of the District hold investment funds arising from the proceeds of long-term debt issuances. The funds may be used for specific capital outlays or for the payment of certain bonds, and have been invested only as permitted by specific State statutes or applicable District ordinance, resolution or bond indenture.

Fair Value Measurements

U.S. GAAP defines fair value, establishes a framework for measuring fair value and establishes disclosures about fair value measurement. Investments, unless otherwise specified, recorded at fair value in the Statements of Net Position, are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Levels of inputs are as follows:

- Level 1 Inputs are unadjusted, quoted prices for identical assets and liabilities in active markets at the measurement date.
- Level 2 Inputs, other than quoted prices included in Level 1, that are observable for the asset or liability through corroboration with market data at the measurement date.
- Level 3 Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date.

Note 2 – Summary of Significant Accounting Policies (Continued)

Receivables and Unbilled Revenues

Customer accounts receivable consist of amounts owed by private individuals and organizations for services rendered in the regular course of business operations. Receivables are shown net of allowances for doubtful accounts, if any. The District also accrues an estimated amount for services that have been provided, but not yet billed. Federal and State grants accrued as revenue when all eligibility requirements have been met. Amount earned but outstanding at year end are reported as due from other governments.

Inventories

Inventories consist of expendable materials, supplies, and water in storage and are stated at average cost.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond the fiscal year ended are recorded as prepaid items

Capital Assets

Capital assets are valued at historical cost, or estimated historical cost, if actual historical cost was not available. Donated capital assets are valued at their acquisition value on the date donated. The District policy has set the capitalization threshold for reporting capital assets at \$5,000, all of which must have an estimated useful life in excess of one year. Depreciation is recorded on a straight-line basis over estimated useful lives of the assets as follows:

Primary Government		
Water Plant	Source of supply (primarily water tanks)	10 - 100 Years
	Plant	10 - 75 Years
	Structures	25 - 35 Years
Sanitation Plant	Plant	10 - 100 Years
	Machinery and equipment	3 - 25 Years
General Utility Plant	Building and improvements	10 - 50 Years
	Machinery and equipment	3 - 25 Years
Discretely Presented Comp	onent Unit - JPA	
Recycle Water Plants	Plant	10 - 100 Years
	Machinery and equipment	3 - 25 Years

Major outlays for capital assets are capitalized as projects, once constructed, and repairs and maintenance costs are expensed. Interest accrued during capital assets construction, if any, is capitalized as part of the asset cost, net of interest income on construction bond proceeds.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2018

Note 2 – Summary of Significant Accounting Policies (Continued)

Capital Contributions

Prepayments of water and sewer capacity fees/connection fees assessed by the District are reported as unearned revenues until construction of the related projects has commenced and the District is reasonably certain they will be completed. Upon completion, the applicable amounts are recognized as capital contributions.

Compensated Absences

District's policy permits its employees to accumulate not more than 288 hours of their current annual vacation for the miscellaneous general and office units and not more than 311 hours for the supervisor, professional, confidential and management units. General Managers are compensated 5 days into accrued sick leave bank at onset of employment and 8 hours per month thereafter up to 96 hours per year with a maximum of 311 hours accrual. Non-Represented employees are compensated 8 hours per month. The annual accrual of sick leave has no maximum accrual. The combined unused vacation and sick pay will be paid to employee or his/her beneficiary upon leaving the District's employment. The amount due will be determined using salary/wage rate in effect at the time of separation and vesting period.

All vested vacation and compensatory leave time is recognized as an expense and as a liability at the time the benefit vests. The liability for compensated absences is included as part of compensated absences payable from unrestricted current assets.

Long-Term Debt

Debt premiums and discounts are amortized over the life of the debt using the straight-line method. Long-term debt is reported net of the applicable unamortized bond premium or discount. Debt issuance costs are expensed when incurred.

Arbitrage Rebate Requirement

The District is subject to the Internal Revenue Code ("IRC") Section 148(f), related to its tax exempt revenue bonds. The IRC requires that investment earnings on gross proceeds of any revenue bonds that are in excess of the amount prescribed will be surrendered to the Internal Revenue Service. The District had no rebate liability for arbitrage as of June 30, 2018..

Pension

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plans and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans (Note 10). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

The following timeframes are used for pension reporting:

For the Year Ended June 30, 2018 Valuation Date June 30, 2016 Measurement Date June 30, 2017

Measurement Period July 1, 2016 to June 30, 2017

Note 2 – Summary of Significant Accounting Policies (Continued)

Pension (Continued)

Gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time. The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense. The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized straight-line over 5 years. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) as of the beginning of the measurement period.

Other Postemployment Benefits ("OPEB")

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District Retiree Benefits Plan ("OPEB Plan") and additions to/deductions from OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments, which are reported at amortized cost.

The following timeframes are used for pension reporting:

For the Year Ended Valuation Date June 30, 2018
Measurement Date June 30, 2017

Measurement Period July 1, 2016 to June 30, 2017

Net Position

Net position represents the difference between all other elements in the statement of net position and should be displayed in the following three components:

<u>Net Investment in Capital Assets</u> – This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of debt and deferred inflows and outflows of resources that are attributable to the acquisition, construction, or improvement of those assets.

<u>Restricted</u> – This component of net position consists of restricted assets and related deferred outflows of resources reduced by liabilities and deferred inflows of resources related to those assets.

<u>Unrestricted</u> – This component of net position is the amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Note 2 – Summary of Significant Accounting Policies (Continued)

Property Taxes

Property taxes are levied on March 1 and are payable in two installments: November 1 and February 1 of each year. Property taxes become delinquent on December 10 and April 10, for the first and second installments, respectively. The lien date is March 1. The County of Los Angeles, California ("County") bills and collects property taxes and remits them to the District according to a payment schedule established by the County.

The County is permitted by State law to levy on properties at 1% of full market value (at time of purchase) and can increase the property tax rate at no more than 2% per year. The District receives a share of this basic tax levy proportionate to what it received during the years 1976-1978.

Property taxes are recognized in the fiscal year for which the taxes have been levied.

No allowance for doubtful accounts was considered necessary.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosure. Accordingly, actual results could differ from those estimates.

Accounting Changes

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This statement applies to government employers who provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This statement basically parallels GASB Statement 68 and replaces GASB Statement 45. Application of this statement is effective for the District's fiscal year ended June 30, 2018.

GASB Statement No. 81, *Irrevocable Split-Interest Agreements*. This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period. Application of this statement did not have a significant effect on the District's fiscal year ending June 30, 2018.

GASB Statement No. 85, *Omnibus 2017*. This Statement addresses practice issues that have been identified during implementation and application of certain GASB Statements. This Statement also addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). Application of this statement did not have a significant effect on the District's fiscal year ending June 30, 2018.

GASB Statement No. 86, Certain Debt Extinguishment Issues. This Statement improves consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. Application of this statement did not have a significant effect on the District's fiscal year ending June 30, 2018.

Las Virgenes Municipal Water District Notes to the Basic Financial Statements (Continued)

For the Year Ended June 30, 2018

Note 3 – Cash and Investments

At June 30, 2018, cash and investments are classified in the accompanying statements of net position as follow:

	Discretely Presented							
		Primary Component Unit -						
	G	overnment		JPA		Total		
Unrestricted Assets:								
Cash and cash equivalents	\$	27,811,040	\$	4,282,084	\$	32,093,124		
Investments		47,206,546		972,870		48,179,416		
Restricted Assets:								
Cash and cash equivalents		2,766,678		-		2,766,678		
Total cash and investments	\$	77,784,264	\$	5,254,954	\$	83,039,218		

At June 30, 2018, cash and investments consisted of the following:

	Discretely Presented						
	P	Primary	Comp	ponent Unit -			
	Go	vernment		JPA		Total	
Deposits:							
Demand Deposits	\$	9,679	\$	692,269	\$	701,948	
Petty Cash		2,200		-		2,200	
Total deposits		11,879	692,269		692,269

Total cash and cash and cash equivalents	\$	30,577,718	\$	4,282,084	\$	34,859,802			

Note 3 – Cash and Investments (Continued)

Fair Value Measurement

At June 30, 2018, investments are reported at fair value. The following table presents the fair value measurement of investments on a recurring basis and the levels within GASB 72 fair value hierarchy in which the fair value measurements fall at June 30, 2018:

	C	nificant Other ervable Input			
		(Level 2) Uncategorized			Total
Municipal Bonds	\$	9,722,457	\$	-	\$ 9,722,457
Federal Agricultural Mortgage Corporation		969,390		-	969,390

Federal Nation Mortgage Association		5,878,020		-	5,878,020
Certificate of Deposit		4,080,409		-	4,080,409
Local Agency Investment Fund		-		31,388,976	31,388,976
Investment with fiscal agents:					
Local Agency Investment Fund				2,766,678	2,766,678
Total investments	\$	48,179,416	\$	34,155,654	\$ 82,335,070

Demand Deposits

Demand deposits are held in pool by the District. The carrying amounts of cash deposits were \$701,948 at June 30, 2018. Bank balance at June 30, 2018 was \$932,664, which were fully insured and/or collateralized with securities held by the pledging financial institutions in the District's name as discussed below.

The California Government Code requires California banks and savings and loan associations to secure the District's cash deposits by pledging securities as collateral. This Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such collateral superior to those of a general creditor. Thus, collateral for cash deposits is considered to be held in the District's name.

The fair value of pledged securities must equal at least 110% of the District's cash deposits. California law also allows institutions to secure the District's deposits by pledging first trust deed mortgage notes having a value of 150% of the District's total cash deposits. The District may waive collateral requirements for cash deposits, which are fully insured up to \$250,000 by the Federal Deposit Insurance Corporation. The District, however, has not waived the collateralization requirements.

Note 3 – Cash and Investments (Continued)

California Local Agency Investment Funds

The District is a voluntary participant in the California Local Agency Investment Fund ("LAIF") that is regulated by California Government Code Section 18429 under the oversight of the Treasurer of the State of California. LAIF is overseen by the Local Agency Investment Advisory Board, which consists of five members, in accordance with State statute. The District's investments with LAIF include a portion of the pool funds invested in Structured Notes and Asset-Backed Securities. These investments include the following:

- **Structured Notes** debt securities (other than asset-backed securities) whose cash flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or that have embedded forwards or options.
- Asset-Backed Securities the bulk of which are mortgage-backed securities, entitle their purchasers to receive a share of the cash flows from a pool of assets such as principal and interest repayments from a pool of mortgages (such as CMO's) or credit card receivables.

JPA's investment in LAIF was pooled with the District. As of June 30, 2018, the District had \$34,155,654 invested in LAIF, which had invested 2.67% of the pool investment funds in Structured Notes and Asset-Backed Securities, respectively. The value of the investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are reported at net asset value.

Investments Authorized by the California Code and The District's Investment Policy

The table below identifies the investment types that are authorized for the District by the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk.

This table does not address investments of debt proceeds held by bond trustees that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District's investment policy.

Authorized Investment Type	Maximum Maturity	Percentage of Portfolio	Maximum Investment in One Issuer
United States Treasury Bills, Bonds and Notes	5 years	None	None
United States Government Sponsored Agency Securities	5 years	None	None
Time Deposits	1 year	25%	None

California Local Agency Investment Fund (LAIF)	None	25%	\$65,000,000
Bonds Issue by Local Agencies or States	5 years	None	None
Certificates of Deposits	5 years	25%	\$250,000

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2018

Note 3 – Cash and Investments (Continued)

Investments Authorized by Debt Agreements

Investments of debt proceeds held by bond trustees are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the District's investment policy. The table below identifies the investment types that are authorized for investments held by bond trustees. The table also identifies certain provisions of these debt agreements that address interest rate risk and concentration of risk.

Authorized Investment Type	Maximum Maturity	Percentage of Portfolio	Maximum Investment in One Issuer
United States Treasury Obligations	None	None	None
United States Government Sponsored Agency Securities	3 years	None	None
Time Deposits	360 days	None	None
Banker's Acceptances	360 days	None	None
Money Market Mutual Fund	None	None	None
Local Agency Fund	None	None	None
Commercial Paper	270 days	None	None
Investment Agreement	None	None	None
Other investments approved by bond insurer	None	None	None

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the District's investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity as of June 30, 2018.

	Remaining Maturity (in Years)											
Investment Type		s Than Year		1 to 2 Years		2 to 3 Years		3 to 4 Years		4 to 5 Years]	Fair Value Total

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2018

Note 3 – Cash and Investments (Continued)

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law limits investments in commercial paper and corporate bonds to the top two ratings issued by nationally recognized statistical rating organizations (NRSROs). It is the District's policy to limit its investments in these investment types to the top rating issued by NRSROs, including raters Standard and Poor's, and Moody's Investors Service. Presented in the following table are the Standard and Poor's credit ratings for the Districts investments as of June 30, 2018.

Total As of June 30, 2018	Minimum Legal Requirement		AAA		AA +/-		A +		Unrated

Disclosures Relating to Concentration of Credit Risk

Investments in any one issuer that represents 5% or more of total District's investments (excluding cash with fiscal agents) are as follows:

Issuer	Investment Type	 Reported Amount	Percentage of Investments
Federal Farm Credit Bank	United States Government Sponsored Agency Securities	\$ 6,886,480	8.65%
Federal Home Loan Bank	United States Government Sponsored Agency Securities	7,847,450	9.86%
Federal Home Loan Mortgage Corporation	United States Government Sponsored Agency Securities	12,795,210	16.08%
Federal National Mortgage Association	United States Government Sponsored Agency Securities	5,878,020	7.39%

Note 3 – Cash and Investments (Continued)

Disclosures Relating to Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF).

Note 4 – Accounts Receivable

Accounts receivable primarily consist of sales and services fees as well as the District's allocation of property taxes collected but not remitted by the Los Angeles County. As of June 30, 2018, sales and services receivable, net of allowance for uncollectible accounts, was in the amount of \$7,468,124 for the District and \$1,112,207 for the JPA, respectively.

Note 5 – Inventories

Inventories consisted of the following as of June 30, 2018:

Primary Government	
Material and supplies	\$ 875,683
Water in storage	6,160,748
Total	\$ 7,036,431
Discretely Presented Component Unit - JPA	
Material and supplies	\$ 171,555

Water in storage was calculated by taking the volume of the reservoir and tanks times the average cost per acre foot.

Note 6 – Investment in Joint Powers Authority

The District was the designated administering agent for the Las Virgenes-Triunfo Joint Powers Authority ("JPA"). Costs and capital contributions are generally shared by the two districts in accordance with capacity rights reserved in each component of the joint system. Maintenance and operating costs are pro-rated to the districts in accordance with the average monthly flows contributed by each to the system. The allocation of construction costs related to projects in process is based upon engineering estimates of the capacity rights and is subject to increase or decrease when final costs are determined.

Las Virgenes Municipal Water District Notes to the Basic Financial Statements (Continued)

For the Year Ended June 30, 2018

Note 6 – Investment in Joint Powers Authority (Continued)

Summary of changes in investment in Joint Powers Authority is as follows:

Beginning of year	\$ 62,556,150
Contributions	13,683,030
Share in income (loss):	
Sanitation expenses	(9,545,571)
Depreciation expenses	(4,172,500)
Loss on disposal of capital assets	 (152)
End of year	\$ 62,520,957

Investment in Joint Powers Authority includes capitalized interests for the debt issued for the JPA's facilities held under the District's name as follows:

Primary government's net investment in	
JPA's capital assets	\$ 60,563,415
Capitalized interest, net	 1,957,542
Investment in JPA	\$ 62,520,957

Condensed financial statement of the JPA as of and for the year ended June 30, 2018 including the participants' approximate percentage shares as follows:

		Las Virgenes	Triunfo
		Municipal	Sanitation
	 Amount	Water District	District
Total assets	\$ 97,785,119	66%	34%
Total liabilities	6,310,491	67%	33%
Total equity	91,174,625	66%	34%
Billings to participants	13,264,203	68%	32%
Depreciation	5,695,161	70%	30%
Construction cost	6,097,896	71%	29%

The amount due from the JPA at June 30, 2018 consisted of the following:

Beginning of year	\$ 4,097,705
Additions (Deletions)	(1,267,600)
End of year	\$ 2,830,105

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2018

Note 9 – Long-Term Debt (Continued)

2009 Sanitation Refunding Revenue Bonds

The District issued sanitation refunding revenue bonds ("2009 bonds") dated December 1, 2009, totaling \$29,415,000. The purpose of the 2009 bonds was to advance refund 1998 Installment Purchase Refunding Revenue Bonds.

The 2009 bonds mature through November 1, 2023, and bear interest at rates ranging from 1.00% to 5.00%. Interest is payable semiannually on May 1 and November 1, beginning May 1, 2010. The 2009 bonds are subject to optional early redemption provisions. The 2009 bonds fully mature on November 1, 2023.

The District completed the refunding to reduce its debt service over the next 14 years by approximately \$7,604,000 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of approximately \$4,796,000.

Total balance outstanding as of June 30, 2018, net of unamortized premium was as follows:

Principal outstanding	\$ 14,670,000
Add unamortized premium	862,846
Net bonds outstanding	\$ 15,532,846

The annual debt service requirements at June 30, 2018 are as follows:

Year Ending			
June 30,	 Principal	 Interest	 Total
2019	\$ 2,210,000	\$ 541,225	\$ 2,751,225
2020	2,305,000	450,450	2,755,450
2021	2,400,000	353,825	2,753,825
2022	2,480,000	272,975	2,752,975
2023	2,580,000	174,075	2,754,075
2024	2,695,000	 58,513	2,753,513
Total	\$ 14,670,000	\$ 1,851,063	\$ 16,521,063

Capital Leases

The District entered into various leases agreement for the copiers at interest rates range from 2% to 6.72%. These leases are classified as capital leases and have been recorded at the present value of the future minimum lease payments at the inception date of the leases. The assets acquired through capital leases are included in the District's capital assets in the amount of \$128,377, net of accumulated depreciation in the amount of \$58,817.

Year Ended	
June 30,	
2019	23,076
2020	24,815
2021	15,488
Subtotal	63,379
Less amount representing interest	6,376
Present value of future	
minimum lease payments	\$ 69,755

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2018

Note 10 – Pension Plan – Defined Benefit Plan

The Net pension liabilities and the related deferred outflows of resources and deferred inflows of resources at June 30, 2018 are as follows:

Deferred outflows of resources:	
Pension contribution after measurement date	\$ 2,063,540
Projected earning on pension plan investments in excess	
of actual earnings on pension plan investments	919,804
Changes of assumption	3,585,046
Total deferred outflows of resources	\$ 6,568,390
Net pension liabilities:	
Net pension liabilities	\$ 20,493,355
Total net pension liabilities	\$ 20,493,355
Deferred inflows of resources:	
Difference between expected and actual experiences	\$ 2,098,046
Changes of assumption	175,573
Total deferred inflows of resources	\$ 2,273,619

General Information about the Pension Plan

Plan Description

The District contributes to the California Public Employees' Retirement System ("CalPERS"), an agent multiple-employer public employee defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by state statute. A full description of the pension plan regarding number of employees covered, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information are listed in the June 30, 2016 Annual Actuarial Valuation Report. This report and CalPERS' audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications.

Benefits Provided

CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. A classic CalPERS member becomes eligible for service retirement upon attainment of age 55 with at least 5 years of credited service. PEPRA miscellaneous members become eligible for service retirement upon attainment of age 62 with at least 5 years of service. The service retirement benefit is a monthly allowance equal to the product of the benefit factor, years of service, and final compensation. The final compensation is the monthly average of the member's highest 36 or 12 consecutive months' full-time equivalent monthly pay. Retirement benefits for classic miscellaneous employees are calculated as 2% of the average final 12 months compensation. Retirement benefits for PEPRA miscellaneous employees are calculated as 2% of the average final 36 months compensation.

Note 10 – Pension Plan – Defined Benefit Plan (Continued)

General Information about the Pension Plan (Continued)

Benefits Provided (Continued)

Participant is eligible for non-industrial disability retirement if becomes disabled and has at least 5 years of credited service. There is no special age requirement. The standard non-industrial disability retirement benefit is a monthly allowance equal to 1.8 percent of final compensation, multiplied by service. Industrial disability benefits are not offered. Upon the death of a retiree, a one-time lump sum payment of \$500 will be made to the retiree's designated survivor(s), or to the retiree's estate.

Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance. Beginning the second calendar year after the year of retirement, retirement and survivor allowances will be annually adjusted on a compound basis by 3 percent.

Employees Covered by Benefit Terms

At June 30, 2016 valuation date, the members covered by the benefit terms are as follow:

Active employees	111
Transferred and terminated employees	74
Retired employees and beneficiaries	141
	326

Contributions

Section 20814(c) of the California Public Employees' Retirement Law ("PERL") requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. For the measurement period ended June 30, 2017, the employees' contribution rate was 6.990% of annual pay, and the employer's contribution rate was 17.351% of employee annual payroll, respectively.

Note 10 – Pension Plan – Defined Benefit Plan (Continued)

Net Pension Liability

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement periods ended June 30, 2017, the total pension liability was determined by rolling forward the June 30, 2016 total pension liability, respectively. The June 30, 2017 total pension liabilities were based on the following actuarial methods and assumptions:

Actuarial Cost Method Entry Age Normal

Actuarial Assumptions:

Discount Rate 7.15% Inflation 2.75%

Salary Increases Varies by Entry Age and Service

Investment Rate of Return 7.65%

Mortality Rate Table Derived using CalPERS' Membership Data for all Funds. The mortality table

used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB.

Post Retirement Benefit Increase Contract COLA up to 2.75% until Purchasing Power Protection Allowance

Floor on Purchasing Power applies, 2.75% thereafter

All other actuarial assumptions used in the June 30, 2016 valuation was based on the results of an actuarial experience study for the period from 1997 to 2011, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website under Forms and Publications.

Discount Rate

The discount rate used to measure the June 30, 2017 total pension liability was 7.15 percent. To determine whether the municipal bond rate should be used in the calculation of the discount rate for each plan, CalPERS stress tested plans that would most likely result In a discount rate that would be different from the actuarially assumed discount rate. The tests revealed the assets would not run out. Therefore, the current 7.15 percent discount rate is appropriate and the use of the municipal bond rate calculation is not deemed necessary. The long-term expected discount rate of 7.15 percent is applied to all plans in the Public Employees' Retirement Fund ("PERF"). The cash flows used in the testing were developed assuming that both members and employers will make their required contributions on time and as scheduled In all future years. The stress test results are presented In a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS website under the GASB 68 section.

The long-term expected rate of return on pension plan Investments was determined using a building-block method In which expected future real rates of return (expected returns, net of pension plan Investment expense and Inflation) are developed for each major asset class

Note 10 – Pension Plan – Defined Benefit Plan (Continued)

Net Pension Liability (Continued)

Discount Rate (Continued)

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund (PERF) cash flows. Taking Into account historical returns of all the Public Employees Retirement Funds' asset classes (which Includes the agent plan and two cost-sharing plans or PERF A, B, and C funds), expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each PERF fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. Tile target allocation shown was adopted by the Board effective on July 1, 2016.

	New Strategic	Real Return	Real Return
Asset Class	Allocation	Years 1 - 10 ¹	Years 11+ ²
Global Equity	47.00%	4.90%	5.38%
Global Fixed Income	19.00%	0.80%	2.27%

contributions		(3,808,359)		(3,808,359)		-
Administrative expense		-		(101,485)		101,485
Net Changes during July 1, 2015 to June 30, 2016		7,465,860		6,535,540		930,320
Balance at June 30, 2016 (Measurement Date)	\$	95,765,371	\$	75,272,016	\$	20,493,355

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 7.15%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15%) or 1 percentage-point higher (8.15%) than the current rate:

	Plan's Net Pension Liability/(Asset)						
	Discou	nt Rate - 1%	Current Discount		Discount Rate + 1%		
	(6.15%)	R	ate (7.15%)		(8.15%)	
June 30, 2017 Measurement Date	\$	33,105,020	\$	20,493,355	\$	9,989,785	

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2018

Note 10 – Pension Plan – Defined Benefit Plan (Continued)

Changes in the Net Pension Liability (Continued)

Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in the separately issued CalPERS financial report.

For the measurement periods ended June 30, 2017, the District incurred a pension expense of \$2,126,219.

As of measurement date of June 30, 2017, the District has deferred outflows and deferred inflows of resources related to pensions as follows:

	Deferred outflows of Resources		Deferred inflows of Resources	
Pension contribution made after the measurement period	\$	2,063,540	\$	-
Difference between expected and actual experience		-		(2,098,046)
Changes of assumptions		3,585,046		(175,573)
Net difference between projected and actual earning on				
pension plan investments		919,804		-
Total	\$	6,568,390	\$	(2,273,619)

The amounts above are net of outflows and inflows recognized in the 2016-17 measurement period.

The expected average remaining service lifetime (EARSL) is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired). The EARSL for the Plan for the 2016-17 measurement periods is 3.2 years, which was obtained by dividing the total service years of 1,042 (the sum of remaining service lifetimes of the active employees) by 324 (the total number of participants: active, inactive, and retired).

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

\$2,063,540 reported as deferred outflows of resources related to pension resulting from the District's contributions subsequent to the measurement date during the year ended June 30, 2017 is recognized as a reduction of the net pension liability in the years ended June 30, 2018. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

Year Ended June 30,	Outfl	Deferred ows/(Inflows) Resources
2019	\$	148,069
2020		2,049,262
2021		604,017
2022		(570,117)
	\$	2,231,231

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2018

Note 11 – Other Post-Employment Benefits

Aggregate net OPEB liability and deferred outflows of resources are reported in the accompanying Statement of Net Position as follows:

Deferred outflows of resources:		
OPEB contribution after measurement date	\$	1,632,555
Total deferred outflows of resources	\$	1,632,555
Net OPEB liabilities:	·	
Net OPEB liabilities	\$	19,183,096
Total net OPEB liabilities	\$	19,183,096

General Information about the OPEB Plan

Plan Description

The District contributes to a multi-employer defined benefit plan to provide post-employment medical benefits. Specifically, the District provides postretirement medical benefits to all employees who retire from the District. The level of benefit and vesting time varies based on the entry date and employee bargaining unit. Benefits range from 100% coverage for employee plus one dependent after 5 years of service to 75% of lowest cost plan for employee only after 10 years of service. The plan does not provide a publicly available financial report.

The District has elected to join the *California Employers' Retiree Benefit Trust* (the "Trust") in accordance with GASB Statement No. 75, which provides a means to fund the annual OPEB costs, referred to as the *Actuarially Determined Contribution* (ADC). The ADC includes the normal cost (current accrual for benefits being earned) plus an amortization of the unfunded accrued liability or net OPEB liability over 15 years on level-percentage of pay basis. The ADC for fiscal year ended 2018 was \$1,553,193.

Eligibility

Employees of the District are eligible for retiree health benefits if they retire from the District and commence pension benefits under PERS (typically on or after age 50 with at least five years of PERS eligible service). Membership in the plan consisted of the following at June 30, 2017, the date of the latest actuarial valuation

Active employees	109
Retired employees and beneficiaries	85
	194

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2018

Note 11 – Other Post-Employment Benefits (Continued)

Net OPEB Liability

<u>Actuarial Assumptions</u>

The net OPEB liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Cost Method Entry Age Normal

Actuarial Assumptions:

Discount Rate 6.00% Inflation 2.75%

Salary Increases Varies by Entry Age and Service

Investment Rate of Return 6.00%

Mortality Rate Table 2014 CalPERS Active Mortality for Miscellaneous Employees

Retirement Rates

Hired before 2013: 2009 CalPERS 2.0%@55 Rates for Miscellaneous Employees. Hired after 2012: 2009 CalPERS Retirement Rates for

Miscellaneous Employees 2%@60 adjusted to minimum retirement age of 52

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2016 to June 30, 2017

Discount Rate

The discount rate used to measure the net OPEB liability was 7.0%. This discount rate assumes the District continues to fully fund for its retiree health benefits through the California Employers' Retiree Benefit Trust (CERBT) under its investment allocation strategy 1. The rate reflects the CERBT published median interest rate for strategy 1 of 7.28% with an additional margin for adverse deviation.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

	Percentage of	
Asset Class	Portfolio	Real Return ¹
US Large Cap	24.00%	7.795%
Long-Term Corporate Bonds	34.00%	5.295%
Long-Term Government Bonds	8.00%	4.500%
US Small Cap	8.00%	7.795%

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate 1-percentage point lower (5.00%) or 1-percentage point higher (7.00%) than the current discount rate:

	Plan's OPEB Liability/(Asset)					
	Discount Rate - 1% (5.00%)	Current Discount Rate (6.00%)	Discount Rate + 1% (7.00%)			
June 30, 2017 Measurement Date	\$ 22,667,120	\$ 19,183,096	\$ 16,364,870			

OPEB Liabilities, OPEB Expense and Deferred Outflows/Inflows of Resources to OPEB

Under GASB 74 and 75, OPEB expense includes service cost, interest cost, change in Total OPEB Liability ("TOL") due to plan changes; all adjusted for deferred inflows and outflows. The District determined that it was not reasonable to rerun prior valuations under GASB 75. Therefore, we used the transition approach provided in GASB 75, Paragraph 244 where in circumstances in which OPEB is provided through OPEB plans that are not administered through trusts, no other beginning balances for deferred outflows of resources and deferred inflows of resources related to OPEB should be reported. If restatement of all prior periods presented is not practical, the cumulative effect, if any, of applying this Statement should be reported as a restatement of beginning net position (or fund balance or fund net position, as applicable) for the earliest period restated. That means that there are no deferred inflows/outflows in the first year (with the possible exception of contributions after the measurement date). The OPEB expense shown below is considered to be preliminary because there can be employer specific deferred items (e.g., contributions made after the measurement date, and active employee contributions toward the OPEB plan).

Note 11 – Other Post-Employment Benefits (Continued)

OPEB Liabilities, OPEB Expense and Deferred Outflows/Inflows of Resources to OPEB (Continued)

Certain types of TOL changes are subject to deferral, as are investment gains/losses. To qualify for deferral, gains and losses must be based on GASB 74/75 compliant valuations. Since the District's prior valuation was performed in accordance with GASB 43/45, it is not practical to calculate compliant deferred outflows and inflows as stated in GASB 75 Appendix E, Paragraph 244. Therefore, valuation-based deferred items will not begin until the next valuation. However, there could be employer-specific deferred items that need to be reflected, as mentioned earlier.

For the year ended June 30, 2018, the City recognized OPEB expense of \$1,118,700 for the District Plan. At June 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred outflows of Resources		Deferred inflows of Resources		
OPEB contribution made after the measurement					
period	\$	1,632,555	\$		
Total	\$	1,632,555	\$	-	

Note 12 – Net Position

Net position represents the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. Designations of unrestricted net position represent the District management's intentions for the use of resources. The net position amounts were as follows:

	Debt Service		
Restricted Assets:			
Restricted cash and investments	\$	2,766,678	
Restricted receivables			
Interest		12,090	
Total restricted assets		2,778,768

Prior Period Adjustment

The District recorded the following prior period adjustments to the beginning net position in order to record beginning balances of OPEB-related items as part of GASB Statement 75 implementation.

Net position at July 1, 2017, as previously reported	\$ 222,512,214
To implement GASB 75 for the net OPEB liability	 (18,064,396)
Net position at July 1, 2017, as restated	\$ 204,447,818

Note 13 – Risk Management

The District retained Tolman & Wiker Insurance Services, LLC, for general liability, property, inverse condemnation, auto and physical damage. In addition, reinsurance support for the program is provided by Swiss Reinsurance of America and Travelers Reinsurance. The coverage for the general liability provides \$11 million per occurrence and \$61 million in the aggregate with a \$50,000 self insured retention limit per occurrence. The coverage for the property provides \$61 million of coverage with a deductible of \$50,000 per occurrence. The District paid premiums of \$835,844 for the year ended June 30, 2018.

Effective August 1, 2012, the District retained the Association of California Water Agencies Joint Powers Insurance Authority (ACWA/APIA) for its workers' compensation insurance coverage. The District paid premiums of \$284,687the year ended June 30, 2018.

Note 14 – Construction and Other Significant Commitments

Lawsuits

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the option of the District's legal counsel and the District's management that resolution of these matters will not have a material adverse effect on the financial condition of the District.

Contract Commitments

As of June 30, 2018, the District had no material construction commitments evidenced by contractual commitments with contractors

As of June 30, 2018, the JPA had five material construction commitments evidenced by contractual commitments with contractors in the amount of \$171,713.

¹ Historical information is presented only for measurement periods for which GASB 68 is applicable.

Notes to Schedule:

Benefit Changes: The figures above do not include any liability impact that may have resulted from plan changes which occurred after the June 30, 2015 valuation date. This applies for voluntary benefit changes as well as any offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes).

Changes of Assumptions: In 2017, amounts reported reflect an adjustment of the discount rate from 7.65 percent (net of administrative expense) to 7.15 percent (without a reduction for pension plan administrative expense). In 2016, there were no changes. In 2015, amounts reported reflect an adjustment of the discount rate from 7.5 percent (net of administrative expense) to 7.65 percent (without a reduction for pension plan administrative expense.) In 2014, amounts reported were based on the 7.5 percent discount rate.

² Net of administrative expenses in 2013-14.

¹ Historical information is presented only for measurement periods for which GASB 68 is applicable.

Notes to Schedule:

Valuation date:

The actuarial methods and assumptions used to set the actuarially determined contributions for Fiscal Year 2016-17 were from the June 30, 2014 public agency valuations.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry Age Normal Cost Method

Amortization method Level percentage of payroll

Remaining amortization period 20 years

Asset valuation method Market Value of Assets

Inflation 2.75%

Salary increases Varies by Entry Age and Service

Payroll Growth 3.00%

Investment rate of return 7.50%, net of pension plan investment expense, including inflation

Retirement age The probabilities of retirement are based on the 2010 CalPERS Experience study for the

period from 1997 to 2007.

Mortality The probabilities of mortality are based on the 2010 CalPERS Experience Study for the

period from 1997 to 2007. Pre-retirement and Post-retirement mortality rates include 5 years of projected mortality improvement using Scale AA published by the Society of

Actuaries.

² Payroll from 2015-16 in the amount of \$9,882,462 was assumed to increase by the 3.00 percent payroll growth assumption.

Interest (1)			1,584,901	
Total Ending Balance				\$ 10,708,096

(1): Interest earned is not reflected as a liability on the Statement of Net Position.

California Government Code (CGC) Section 66013(c) requires the District to place capital facilities connection fees received and any interest income earned from the investment of these monies in a separate capital facilities fund. These monies are to be used solely for the purposes for which they were collected and not commingled with other District funds.

CGC Section 66013(d) requires the District to make certain information available to the public within 180 days after the close of each fiscal year. CGC Section 66013(e) allows the required information to be included in the District's annual financial report. The Annual Connection Fee Report shown above meets this requirement.

Capacity fees are imposed for initiating water and sewer connection service by the District at the request of the customer. No fees are imposed upon real property or upon persons as an incident of property ownership, but rather as a condition of service.

Developer fees are imposed for other services such as plan check, right-of-way, inspection and coring fees.
