## Construction Update & Traffic Notification Five-Million-Gallon Tank Project

Dear Three Springs Resident:

Las Virgenes Municipal Water District thanks you for your continuing cooperation as the Five-Million-Gallon Tank Project progresses.

Preparation work for pouring the first half of the tank's roof is nearly complete.

This is a notification that **Tuesday, December 2<sup>nd</sup>** is expected to be a **"heavy construction day"** when concrete will be transported to the reservoir site **between 7 a.m. and 4 p.m.** Extra workers will be present at the project site on that day.

During those hours, it is estimated that approximately 42 loads will be delivered through the day. Once again, a sheriff's deputy and extra traffic controls will be in place. See the reverse side of this letter for more details.

After the deliveries have concluded, it will be necessary for some workers to remain through the night-time hours to keep the concrete wet as it cures. Cracking can occur if concrete cures too quickly. Some lighting may be visible in the work area through the night.

We ask for your patience if you encounter any of the slow-moving delivery vehicles.

Updates and a webcam documenting work at the site can be found at [www.LVMWD.com](http://www.LVMWD.com).

If you have questions, please call 818-251-2180 and leave a message or send an e-mail to [5mil@LVMWD.com](mailto:5mil@LVMWD.com). We strive to respond to messages within one business day.

**Las Virgenes Municipal Water District**
