

Neighbor Neighbor

Date: _____

Dear Neighbor,

I'm _____
(name and contact information optional).

I noticed that you may have an irrigation system issue that requires attention. Instead of reporting my observation to the water district, I have chosen to send you this card instead in the spirit of "neighbors helping neighbors," so our community can reduce its water use during the current drought.

I noticed:

- Runoff from your property.
- Wrong day irrigation.
- A broken sprinkler.
- Irrigation on between 10am and 5pm.
- Other: _____

I hope you can fix the problem, avoid penalties and most importantly - help save water.

Thanks for your understanding!
