## LVMWD Releases Annual Water Quality Report

### *District Customers Receive Excellent, High Quality Water*

CALABASAS, CA - June 22, 2017 – Las Virgenes Municipal Water District (LVMWD) has released and mailed its 2016 Water Quality Report to homes and businesses in the District's 122 square-mile service area. The report is also available online at [www.LVMWD.com](http://www.LVMWD.com). The annual publication of test results reflects water quality analyses conducted throughout 2016 and shows that LVMWD customers continue to receive excellent quality drinking water.

LVMWD General Manager David W. Pedersen said, "I'm pleased to report the water delivered to LVMWD customers meets or surpasses all state and federal drinking water standards." He added, "Tap water is among the most thoroughly tested products you purchase; it is monitored on an ongoing basis. We're aware that some vendors are trying to sell supplemental home treatment systems by disparaging the quality of tap water, but Las Virgenes customers can enjoy water straight from the tap with every assurance that it's clean, safe and healthy to drink."

The publication of an annual Water Quality Report, also called a "Consumer Confidence Report," is a state and federal requirement. Because there are no local sources, LVMWD's water supply travels hundreds of miles and is thoroughly treated prior to delivery. The Metropolitan Water District of Southern California and LVMWD personnel perform water quality tests at numerous locations in the service area throughout the year.

--more--

Las Virgenes Municipal Water District provides drinking water to the cities of Agoura Hills, Calabasas, Hidden Hills, Westlake Village and adjacent unincorporated areas of Los Angeles County.
